ORANGE PEEL GEL PAINT STRIPPER

DESCRIPTION: A citrus style orange gel substance that works to remove old paint & other coatings

USES: For removal of most polyurethanes, epoxies, enamels, clears, single and 2 pack paints.

SIZES: 10 litre, 4 litre, 1 litre, 500ml

PROPERTIES (at 20°C)

APPEARANCE: Orange gel

TOXICITY: See Precautions and refer to Safety Data Sheet

FINISH: N/A

COVERAGE: 5m² per litre - depending on thickness of paint film – a thicker paint film or multiple coats will lessen coverage.

POTLIFE: N/A

MIXING RATIO: N/A

THINNING: Do not thin

WEIGHT/LITRE: N/A

FLASH POINT: N/A

CLEAN UP: Fresh water

UN NUMBER: N/A

TRANSPORTATION: Non-Hazardous

PREPARATION: Shake well before use.

APPLICATION: Pour into a clean bucket or container. Brush liberally onto the paint or varnish that is being removed. As soon as the coating starts to soften remove with a paint scraper. Surfaces with multiple coatings may require more than 1 application. **Note: Some paints can take longer to remove, ORANGE PEEL can be left to work overnight as it evaporates slowly.**

PRECAUTIONS: Wear gloves, goggles and protective clothing
Do not breathe fumes, gas, mist, vapours or spray.
Avoid contact during pregnancy and while nursing.
Wash hands thoroughly after handling.
Do not eat, drink or smoke when using this product.
Do not allow residue to enter drains or into the aquatic environment.
Store locked up, in a well-ventilated place. Keep cool.
Keep out of reach of children

SPECIAL INSTRUCTIONS: ORANGE-PEEL can damage some surfaces. On fibreglass care must be taken to not leave the treated areas too long or gel coat damage can occur. On rubbers, synthetic plastics and linoleum do a small test area first for suitability. ORANGE PEEL is Methylene chloride free.
On some soft woods, Orange Peel can leave a stain, we suggest doing a test area first.

FIRST AID: If poisoning occurs call a doctor or Poisons Information Centre (Aust) on 131126 or (NZ) 0800 764 766 and have label information ready.
If in Eyes rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice.
If on Skin wash with plenty of soap and water. Take off contaminated clothing and wash before re-use. If skin irritation occurs get medical advice/attention.
If Swallowed rinse mouth. DO NOT induce vomiting. Give a glass of water. Never give anything to the mouth of an unconscious person. If vomiting occurs, place victim face downwards, with the head turned to the side and lower than the hips to prevent vomit entering the lungs.
If Inhaled remove person to fresh air. Remove contaminated clothing and loosen remaining clothing. Allow person to assume most comfortable position and keep warm. Keep at rest until fully recovered. Get medical advice if breathing becomes difficult.
